

# Installation of Gina software

1. **Deinstallation** of all Software in frame of **Gina** and **National Instruments**
2. Go to the web page „[www.schaller-mt.de](http://www.schaller-mt.de)“
3. Choose your language.
4. Select the button „**Download**“
5. Select **“Gina Software”**
  - Then you have two possibilities: The first one is with the Firefox browser. In this frame you will see a window where you can select the target directory.
  - The other possibility is the Google Chrome Browser. In this browser, the download starts immediately. In this frame you can find the file in the download directory on your system.
6. Afterwards, you open the target directory of your download and double-click on the **“Installer Gina \_V1-4.0.zip”** file. Then the file opens. In this file you can find the directory **“Installer Gina \_V1-4.0”**. Copy this directory and paste this outside of the \*.zip file.
7. In this directory you can find a directory with the name “Volume”. In this directory there is the program file **“Gina\_V1-4.0 1install.exe”**. Please start this file.
8. During the installation procedure you receive some questions. Click “OK” every time.
9. Afterwards, the “Gina software” is installed and you can use the software.
10. At first, you need to enter the serial number into the input array.
